## Is your medicine cabinet fit for the winter?

Most common winter ailments, such as colds, sore throat, cough, sinusitis or painful middle ear infection (earache) can't be treated with antibiotics.

## What works instead?

Rest, drink plenty of fluids, take pain relievers, such as paracetamol or ibuprofen, and talk to your pharmacist for advice on getting the relief you need.

## How long can I expect to suffer?

Middle ear infection - 4 days

Sore throat - 1 week

Cold - 1.5 weeks

Sinusitis - 2.5 weeks

Cough - 3 weeks

## What should I do now?

Ask your pharmacist what medicines should be in your cabinet to help get you and your family through the winter season.

Where can I get more information?

Ask your doctor for a Factsheet on your condition or visit www.treatyourselfbetter.co.uk for more information on how to treat yourself without antibiotics.
